

# Water Resistant Relays

## Relay Stagni

Water Resistant Relay available at the rated voltage of 12V and 24V DC with a switching power of interruption up to 30A. This relay features a sealed plastic housing for applications requiring water resistance (IP66).

The Water Resistant Relay can be supplied with a coil suppression diode or resistor on request to reduce voltage spikes, noise and interferences.

Relay Stagno utilizzato negli autoveicoli disponibile con tensioni nominali di 12V e 24V DC con potere di interruzione fino a 30A. Questo relay dispone di un involucro di plastica sigillato per applicazioni che richiedono resistenza all'acqua (IP66).

Il Relay Stagno può essere fornito con un diodo o una resistenza di soppressione bobina per ridurre disturbi e picchi di tensione.

## 12V

OUR CODE	DESCRIPTION	PINS	A	V	TYPE	ADDITIONAL INFORMATION	CONNECTION	DIAGRAM
<b>O.10.204.WP</b>	WATER RESISTANT RELAY NORMALLY OPEN RELAY STAGNO NORMALMENTE APERTO	4	30	12	B	Without bracket Senza staffa		
<b>O.20.205.WP</b>	WATER RESISTANT RELAY CHANGE OVER RELAY STAGNO IN SCAMBIO	5	20/30	12	B	Without bracket Senza staffa		

## 24V

OUR CODE	DESCRIPTION	PINS	A	V	TYPE	ADDITIONAL INFORMATION	CONNECTION	DIAGRAM
<b>O.10.404.WP</b>	WATER RESISTANT RELAY NORMALLY OPEN RELAY STAGNO NORMALMENTE APERTO	4	30	24	B	Without bracket Senza staffa		
<b>O.20.405.WP</b>	WATER RESISTANT RELAY CHANGE OVER RELAY STAGNO IN SCAMBIO	5	20/30	24	B	Without bracket Senza staffa
